Y9 Average Attitude and Approach Scores

**KING EDWARD VII
SCHOOL**

1) Attitude and Approach to lessons continued...

1. Messages through assemblies and class activities about the importance and impact of the right approach.
2. After each review students will do an activity involving calculating their average attitude and approach. They will then set targets based on their review.
3. Bonus achievement points will be given out to students who have an average between 1 and 2.
4. Weekly and termly rewards will be given out based on conduct points.

So that the message at home and school is consistent it would be useful if, after every review, you could discuss with your son/daughter what their average attitude and approach is and what targets they have set themselves for the next term.
